Image 1. ALICE's UI

ALICE's UI is a simple blue background with spaces for ALICE's avatar, chat log, and the Ask, Clear Chat, and Send buttons. ALICE offers the user 2 different ways of interacting with her. Either the user can click on Ask to directly talk to ALICE and give her commands, or they can type the prompts into the text box and click Send or hit Enter to send the command to ALICE. While designing the UI for ALICE, we wanted to make sure that it is clean, clear, and absolutely easy to navigate, and we believe that we have done a fantastic job at that.
